## INTRODUCTION

Before I explain this work (perhaps self-evident from the title), let me announce that I will email any purchaser a free EXCEL Spreadsheet or Access Database file simply by asking. Go to the last page to see how to request your free file.

I developed this list a couple of years ago after being unable to find one anywhere -- even on the U.S. Census Bureau web site, the U.S. Postal Service web sites or from ZIP Code directories. It is quite easy to find information on specifically searched localities, but not an overall list. So, I did some legwork and developed this list myself in an EXCEL Spreadsheet. I put the spreadsheet up for sale online using the lulu.com self-publishing service and was amazed at the interest. It sold well. Recently, however, the lulu.com service discontinued allowing self-publishers to offer digital media such as files. In order to continue providing this list, I have converted to an eBook at the same price \$4.00 and offer the file by email free to any purchaser that asks for one.

I have learned that those purchasing this list have found it useful for marketing. Overseas purchasers like to peruse it to grasp the enormity of the United States. There are, by State, 3,136 counties and 25,097 Cities. Using your eBook reader, you will be able to conduct searches -- an advantage over paper books. With an EXCEL or Database file, the sky is the limit when it comes to the utility of these lists

I hope you find this work of interest and value.
